June 22, 2016	Assessment and Treatment Planning
June 23, 2016	Family Play Therapy
June 24, 2016	Group Play Therapy

CACPT is planning to offer the first two-week level of Play Therapy Certificate Program in the Spring of 2016. In order to proceed, we will need to know that we have sufficient numbers registered in the program to support a successful outcome.

The two weeks of Level I of the CACPT Play Therapy Certificate Program include nine workshops. These workshops are offered to individuals registered in the Certificate Program, as well as others who do not wish to attend the full Certificate Program, but would like to obtain training in play therapy.

Information on eligibility criteria for the CACPT Play Therapy Certificate Program, and registration can be found on the website ([www.cacpt.com](http://www.cacpt.com)).

Individuals who do not wish to attend the full Certificate Program but would like to obtain training in Play Therapy can sign up for limited individual courses within the program (called CEU days). The cost per day is \$200 (plus HST) for CACPT members and \$220 (plus HST) for non-CACPT members. (Note that there will be a separate Workshop Application Form on the website).
